

Genome Center

HALLOWEEN SYMPOSIUM

Thursday, October 30TH

9am – 2pm, 1005 GBSF & LOBBY

Featuring these distinguished speakers

Bruce Draper

UC Davis, Molecular and Cellular Biology

9:10 am “Sexy Knockouts: Using Genome Editing Technologies to Study The Mechanisms of Sex Determination and Maintenance In Zebrafish”

Bruce Conklin

Gladstone Institute of Cardiovascular Disease, UCSF

9:45 am “Precise Single-base Genome Engineering in Human iPS Cells to Model and Treat Disease”

David Segal

UC Davis, Genome Center

11:00am “Genome Engineering at the Dawn of the Golden Age”

Dana Carroll

University of Utah, Department of Biochemistry

11:30 am “Genome Engineering with Targetable Nucleases”

8:45am Complementary coffee and morning snacks sponsored by 

12:30-2:00pm—Genome Center Festivities featuring

1:15pm Poster Presentations by Genome Center Core Facilities

Lutz Froenicke, DNA Technologies Core

Brett Phinney, Proteomics Core

Joe Fass, Bioinformatics Core

Johannes Fahrman, Metabolomics Core

Raffle for services worth \$2000 from the Genome Center Core of your choice*

12:30pm Complementary lunch for first 150 attendees sponsored by

Poster Presentations by GC Researchers • Pumpkin Carving & Costume Contests • Vendor Fair

*Drawing will occur at 1:45pm. Recipient must be present to win.
Costume Contests—best individual costume, best lab/group costume.
